DREADFUL DISCLOSURES.

OVER FOUR THOUSAND OHILDREN STARVING TO DEATH.

A Long List of Heartrendering Cases Brought to Light in Vlenna-Infamous Action of the Police in County Galway.

11 17 P. Land

A Mob Takes Westminister Abbey. VIENNA, Oct. 25 .- Inquiry recently instituted into the condition of the Vlenna poor attending the elementary schools resulted in appalling discioeures. Upward of four thousand children were suffering the pangs of hunger, some of them being on the verge of starvation. A long list of heartrending cases came to light, and there was no doubt that not a few of the unfortunate little ones had died of inattention. Their emaciated appearance amply testified to the veracity of the statement I persunsively extracted from them, which revealed a condition of hopeless destitution unprecedented in the pauper records of this capital.

This intelligence heralded abroad through the iocai press at once made the starving school children the idels of the hour. The children, when cross examined hy a relief committee, corroborated the evidence aiready taken. It transpired that their principal food consisted of dry bread and occasionally a little weak soup or coffee. It is quite true that some of them affirmed that they took habitually a glass of spirits to stifle the cravings of their appetite and to keep out the cold. One boy positively stated that his father was a good man and that when he couldn't give him anything to eat he let him drink as much gin as he liked and this was why he often went to school drunk.

The parents of these starving children are for the most part day laborers, though some undoubtedly belong to a less respectable class. As soon as the work of relieving the children was taken in hand subscriptions were opened at the editorial offices of the metropolitan press. Soldom has an appeal to public charity been more readily and generously responded to. The poorer classes have largely contributed. The popuiar newspapers are full of advertisements from people who can't spare much money, hut who offer to give one or two children their daily food. All the hotels and restaur-autkeepers are feeding a certain number of children every day.

Sir Wilfred Blunt Arrested. DUBI IN, Oct. 25. - At Woodford, County Grlway, Sunday, a Home Rule meeting was to be held under the auspices of the British Home Rule union, to protest against coercion. The government proclaimed the meeting and sent a large body of troops and police to the town. There was a great crowd of people from the surrounding country. The piatform was in a large field. Wilfred Blunt, the philanthropist, formerly Conservative, was to proside, assisted by James Rowlands, M. P., and other British members of parliament. When the speakers mounted the platforn, Judge Byrne, the divisional magistrate, forbade Mr. Blunt to hold the meeting. Thereupon Mr. Blunt defied the police, who were at once ordered to clear the platform. Several pollcemen soized the bold speaker, who violently resisted

"Are you such d-d cowards that you do not dare to arrest me?" The district inspector repiled, "I arrest

Mr. Blunt was then marched off under a heavy escort of poilce, with his wife following. The people pressing upon the officers and blocking the way, the latter were ordered to charge up in them, which they did, injuring many. Mr. Rowlands, who was left with his conferees on the stand, called for three cheers for Blunt, which was heartily given. Mr. Blunt was taken before two maristrates and commanded to refrain from holding any meeting, but the English member refused to comply with their demands

ing Mr. Biunt and another prisoner were conveyed to Loughrea juli. A feeling of intense gratification prevails among the Nationalists. Mr. Harrington last night expressed himself that he did not believe Mr. Blunt would be detained or prosecuted. "But," he added, "it will do good and I should not wonder if we hear

and was retained in custody. In the even-

more of it." Mr. William O'Brien was paying a visit to Mr. Di ion when the news of Mr. Blunt's arrest arrived. Both gentlemen expressed great concern for the personal inconvenience to which Mr. Blunt would be subjected, but could not conceal their gratification at the turn events had taken. The interest was intensified when it became known that the telegraph wires between Portuinns and Woodford had been cut and the service sutpended for several hours. The greatest activity prevailed at Diblin Castle, communications being constantly sent and re-

ceived. Sir Wilfred Blunt's letter to Magistrate Byrne guaranteed moderate language on the part of he speakers. He warned the magistrate that he would hold him responsible if he attacked an unarmed, orderly

meeting. Over thirty persons were more or iess seriously injured at Woodford. The feeling against the police runs very high. It is stated that in many instances they had recourse to unuecessary hrntality.

A Mob in Westminster Abbey.

London, Oct. 25. -Several th usand of the unemployed, with a red flag at their head, marched in procession yesterday afternoon from Trafalgar square to Westminster Abbey, and, aithough no. Invitation had been extended, 1,200 of the crowd were admitted. The flag was left in charge of the vergers. Inside the abbey many of the unexpected visitors remained covered, and Indulged in whistiing, while others mounted the redestals of the various statues or mingied with the decent people present, who mostly leff the building. The crowd, as a rule, chewed tobacco, and expectorated averywhere, regardless of the surroundings, until the first esson was announced, when the reader was foud y jeered, completely drowning his voice. The second lesson was similarly rere ved.

Canon Pro nero preached a sermon, which was intermined i repeatedly by loud ques-

tions and er t ently, At the close of his remarks the mote hissed kitted, his skull being crushed

and marshed out of the abbey, cordially, cheered by their comrades in waiting out side. The whole then proceeded shouting and hooting, to Trafalgar square, where the leaders denounced the church and police.

Several arrests were made of brawling persons and thieves.

Let the Punishment Fit the Crime. Paris, Oct. 25.—The testimony developed at the inquest into the great loss of life attending the burning of the opera comique and the nature of the Indictment against M. Carvalho, the manager, and other officials, have just been published, through journalistic indiscretion. The evidence taken indicates almost incredible carelessness and want of system in the management of the theater. M. Carvaiho gives a version of the cause of the disaster which he claims will exculate him from all blame. He promises to prove the accuracy of his statements when the case comes up for trial.

"BLINKY" MORGAN'S TRIAL.

An Influx of Criminals, Who Are Sus-

pected of Planing a Rescue. RAVENNA, O., Oct. 25.—The now aikabsorbing topic of conversation in official circles, in the househor in the shop, and on the street corners is "Blinky" Morgan, the recognized murderer, high wayman, rohber, thief and general desperado. Ever since the arrival ou Thursday of the two score of witnesses who will testifiy in his behalf by attempting to prove an alihi, the officials in oharge of "Blinky" have been more cau-

His adeptness at breaking jail is well known. The first precaution taken was the handcuffing of him right at his seat in the court room, before leaving court, instead of going to an anto-room, as has been the custom. But the question has arisen, would these precautions already taken be of any benefit in event of an attempted rescuel Many men are here presumahly out of curiosity to see "Blinky" and hear the trial, but it is a fact and commonly known that some of "Blinky's" best friends and hrothers in

crime are on hand, Mrs. Neil Lowrie, the relative of Morgan by marriage, and sister of Coughiin, now in jail waiting to be tried for compileity in the same murder for which "Blinky" is being tried, has been entirely too familiar with "Blinky" since her arrival. Her falling on "Blinky's" neck and kissing him passionately has been much talked about, and it is understood that Sheriff Sheldon will hereafter allow no familiarity whatever and keep ail at a safe distance.

"Blinky" reads the dally newspapers regularly. One of the guards referred to an article in one of them in which It said that hemp was staring him in the face. "Never will a rope be stretched around my neck,"

Word comes from Akron that a number of well known crooks have been passing through there on the train daily for some time past, and the conductors say that they aimost invariably hold tickets for Ravenna. Besides the number of deputies already on hand, it has been suggested that what Raveuna now wants is 100 extra policemen in and about the jail and court house, for so sure as the jury brings in a verdict of . guilty, and, from the evidence, that is now almost a certainty, there will be trouble. It is understood that the city of Cleveland, If asked, would furnish fifty of the extra

Some forty of the turbulent young Crows have been at the Tongue River Agency with the view of Inducing the Cheyennes there to join them, but the latter have refused to do so. Three companies of infantry are heid in readiness at Fort Keogh for immediate service whenever circumstances may demands Three troops of cavairy and two companies of infantry have been ordered from Fort Meade to Fullocks Fork, between th Tougue River Agency and the Crow Agency, for service in case of any extended outbreak by the Crows and to prevent them should they disposed to do so, from breaking away in a southeasterly direction. At Fort Custer, within eight miles of the Crow Agency, there are five troops of cavalry and two companies of infantry; also one company of infantry immediately at the agency. Gen. Ruger reached Fort Custer at noon Sunday."

A dispatch from Billings, Mont., says the authorities deciare that the matter will be settled the first of the week and a fight today or to-morrow seems highly probable.

AMER GREEN'S LYNCHERS.

NO POSSIBILITY OF CONVICTING ANY OF THEM.

The Coroner Investigating the Affair, but It is Belteved That He is Working On a Hopeless Case-Governor Gray in a Letter Consure the Sheriff and Judge.

DELPHI, Ind., Oct. 25.—There is still considerable excitement over the lynching of at Bowling Green, Ky. Amer Green, on Friday night, and more in the eastern part of the county about Buriington and Young America. The coroner beld a short sitting on Saturday at Flora and adjourned nutil this week, when he will take up the investigation. He is proposing to subpoens a large number of witnesses with a view to Identify members of the mob. The Deiphi Journal, in an extra issued Saturday morning, stated that Mr. Mahbitt, father of the missing girl, talked with Amer as the moh was preparing to bang him. Mr. Mahbitt denied before the coroner that he was present, and now the Journal editors will be summoned to tell what they know. His was the only name mentioned as that of a member of the mob.

A letter published in the Indianapolis Journal, addressed by Governor Gray to Sheriff Van Gundy, has called forth considerable comment and awakened indignation toward the governor. Ho censures the sheriff and the judge for gross negligence of duty and lack of precaution, but his letter is based on an assumption of facts that did not exist. Even those who most directly deprecate the action of the mon have not a word of censure for the sheriff.

There was absolutely nothing in the sitnation prior to Friday night to excite supiclon, and the attack was a surprise to even the best informed.

Green's attoroey, on the day previous to the attack, told the sheriff they had no fear of a mob.

It is also believed that Green's attorneys, Dykman & McConnell, of Logansport, will press an investigation. They have already received a large fee from their client. The grand jury will be called for a special session on Wednesday. Owing to the desperate record of Green, there is no possibility of convicting a member of the niob that hung him, even if he were identified. The story told by Green on the scaffold, to the effect that Luella Mabbitt was still alive and under the care of Samuel Payne, at Fort Worth, Tex., is considered only a ruse to stay his execution until he could be reclaimed by the officers of the law. Inquiry at Fort Worth has failed to discover either the girl or Payne. Green's attorneys now say that they questioned him just before he was brought from the Michlgan City prison, and he refused to tell even them of the whereabouts of Luella Mabbitt, saying that he had not confidence in any man to tell where Luelln Mahbitt was,

Green's entire life was one of infamy. Scarely a family within a radius of five miles of his former home but had some pertonal grievance against him. He would cheat, ile and steal, and was familiar with the entire calendar of crime. He was feared by every man in his neighborhood, and on numerous occasions when arrested for some depredation he forced men through fear to perjure themselves to acquit him. No man in his neighborhood ever testified against bim. He would call people up at all hours of the night to make some tyrannical demand of them, such as to go into the cellar and get him a giass of milk or equally ridiculous thing, hut no one ever dared to compiain. He robbed every man in the neighborhood, but to prosecute him or testify against him meant to be flogged or have a barn burned or a horse poisoned. He was a member of what was once known, as the Jap Choen gang, which was broken up a few years ago when Choen was sent to the penitentiary,

Excitement Over a Murder. LITTLE ROCK, Ark., Oct. 25.-Advices from Tahlequah, Indian Territory, report great excitement there over the murder of Editor Stone, of the Telephone newspaper, who was shot Saturday by E. C. Boudinot, of the Advocate. Stone represented the Reform party, who oppose further concessions of land to the cattle syndicate. His paper contained very hitter attacks npon the Nationalists, or party in power, who are accused of bailot box stuffing to retain their offices. The Advocate is the organ of the latter party. Boudinot is guarded by arme! friends, and the friends of Stone are also arming themseives. It is feared that the tragedy is the beginning of a civil war that has long been predicted in the Cherokee

Two Vessels Go Down in Lake Erie. OLEVELAND, O., Oct. 25 .- An unknown schooner is ashore off Noble station, twelve miles east of Cleveland, with six men lashed to the rigging. There is a heavy sea, and it is feared the vessel will go to pleces before the ilfe-savers cau reach her. A special from Ashtabula harbor says that the schooner James F. A Fight With Bare Knuckles. NEW YORK, Oat. 25 -A short but desper-

ate prize light took place in an old barn, on the east side of the Passiac, nearly opposite Newark, Saturday midnight. It was between John Fox, of Chicago, and Huga Covne, of Nawark, Bare knuckles were used for a purse of \$50; The Chicago man is nearly six feet high and weighs about 150 pounds. The Newark lighter weighed but two pounds less, and is three inches shorter. Charles Grimes held the mones, Frank Cavanagh acted as second for Fox, and John Martin, of Nawark, for Coyne. As soon as time was called the men advanced and were about to snake hands, when Fox. struck a stinging right-hander on Coyne's neck. The latter tried to return the compliment, but was foiled. The Chicago tough forced the light and gave Coyne an unmerciful ham mering, and soon ended the round. The second round was brutal from the start. and Fox agalu led, dealing his game adversary a succession of painful blows. Again the two ran at each other, and fought desperately, nntil Fox gave Covne a sledgehammer blow on the neck, knocking him down. Martin then admitted that his man was defeated when he saw he was unconsclous, and Fox took the \$500.

Mounted Sword Contest.

Louisville, Ky, Oct. 25. — In the mounted sword contest yesterday afternoon between Sergis. Walsh and McGulre, at the base ball grounds, the latter won in the fourteenth round by knocking his opponent clean off his horse. McGnire caught Walsh a tremendous back-handed blow on the side of the head, unhorsing him. He fell to the ground half stunned and was unable to continne the fight. The contest was for a purse of \$300. Duncan C. Ross challenged the

Probably Gutty of Another Marder. SAN FRANCISCO, Oct. 25. - Hattie Woolstein, who is alleged to have confessed the murder of Dr. Harlan at Los Angeles, is rapidly recovering, and will probably be able to attend her examination on Monday. Since her arrest suspicion has been aroused concerning the death last spring of an elderly lady named Barbour, who resided in the same house with Hattie. This lady's death was rather sudden and it is now thought that she was poisoned by the girl, After her death some \$50,000 worth of bonds, which she was known to have had, could not be found, and it has recently been discovered that these identical bonds are in a local bank, and Hattle is charged with having negotiated them, the money thus realized being invested in tand. A movement is now being made toward having Mrs. Barbour's body disinterred, so that her stomuch may be examined.

Destructiveness of Sherman's Bummers. As we advanced into the wild pine regions of North Carolina the natives seemed wonderfully impressed at seeing every road filled with marching troops, artillery and wagon trains. They looked destitute enough as they stood in blank amazement gazing upon the 'Yanks" marching by. The scene before us was very striking; the resin pits were on fire, and great columns of black snoke rose high into the air, spreading and mingling together in gray clouds, and suggesting the roof and pillars of a vast temple. All iraces of habitation were left behind, as we marched into pine needles. The straight trunks of the plue trees shot up to a great height, and then sprend out into a green roof, which kept us in perpetual shade. As night came on, we found that the resinous sap in the cavities cut in the trees to receive it had also been lighted by "bummers" in our advance. The effect of these peculiar watch fires on every side, several feet above the ground, with flames licking their way up the tall trunks, was peculiarly striking and beautiful.

But it was sad to see this wunton destruction of property, which, like the firing of the resin pits, was the work of "bummers," who were marauding through the country committing every sort of outrage. There was no restraint except with the column or the regular foraging parties. We had no communications, and could have no safeguards. The country was necessarily left to take care of itself, and became a "howling waste," The "coffee coolers" of the Army of the Potomac were archangels compared to our "bunnners," who often fell to the tender mercies of Wheeler's cavalry, and were never heard of again, earning a fate which was richly deserved .- Capl. Daniel Oakey in The Century.

The circular gives twenty reasons "that \$16,000. have compelled the serious actions," which are substantially as follows:

The general office has become the haunt of men whose aim it is to benefit themselves; there has been a conspiracy to hold calaried positions under control of the general assemble; that persons were hired to lecture, organize and instruct, when their principal task was to fix certain districts; saved, but the building was destroyed. The judge will probably arrive tomorrow, when the remainder of the indicted Fidelity people will be arraigned. Ex-Fidelity Bank Directors Chatfield and Pogue, with their attorneys, William Ramsey and Isaac Jordan, and Elward Gurney and Thomas McDougall, appeared before Judge Sage this morning and asked for a speedy trial, that the stigma of guilt on the tair inster of their previous good character mi ht be at once removed.
